Our best family finds this month

1

Does your family suffer from fall allergies? The **Rowenta Intense Pure Air Auto Purifier** uses HEPA technology and filters 99.97 percent of indoor pollution and effectively filters formaldehyde found in the home. It features four high-performance filters and smart sensors. Available at Bed, Bath & Beyond. \$300.

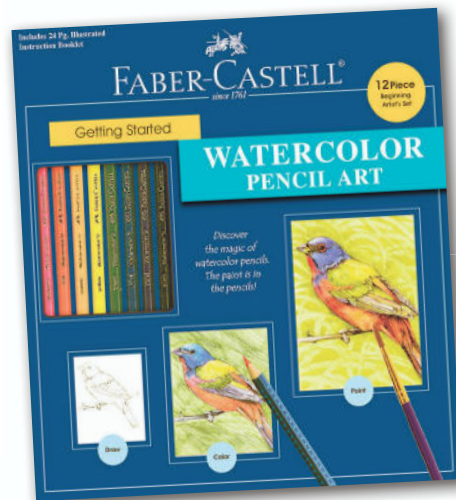

3

Teaching kids about science is made easier with hands-on activity sets from Recharge Labs. The **Solar Cork Boat** and the **Solar Scavenger Hunt** show children how solar power works. The Solar Cork Boat demonstrates how solar energy can make paddles spin to propel a boat in water. Recommended for students in grades four – 12, the Solar Scavenger Hunt requires students to test various light sources to determine which generate the most solar power. Available at www.rechargelabs.org/store. \$30 – \$115.

2

Getting Started Watercolor Pencil Art from Faber-Castell's Creative Studio are new acrylic and watercolor paints for aspiring artists 12 and older. The starter sets include a full range of 12 highly pigmented colors of acrylic or watercolor paints and a brochure with tips to get you started. Available at Amazon, Michael's and Hobby Lobby. Starter kits are \$15.

4

New **Diaper Changing Glove-Saks** from BabyBum easily convert from a glove to a dirty diaper sack, keeping poop off your hands for mess-free disposal. These gloves are made from soft and safe material, and are vinyl and latex-free. With specially designed flaps, they can be shut securely without the worry of leaks. Each package includes 50. Available at www.babybumproducts.com and Amazon. \$8.
